Carpenter Assist

Job Description

Introduction:

We are looking to hire a carpenter's assistant with some knowledge and experience of various carpentry practices. You will assist in a variety of home and cottage renovations and new build projects.

Responsibilities:

- Preparing construction sites, materials and tools
- Loading and unloading of materials, tools and equipment
- Removing debris, garbage and materials from sites
- Assembling and disassembling barricades, temporary structures and scaffolding
- Assisting contractors and other subtrades as required
- Ability to assess the quality and knowledge of woodwork and materials
- Ability to operate basic hand tools and power tools
- Follow all health and safety regulations
- Ability to stand for prolonged periods, climb, pull and lift heavy objects

Requirements:

- Some experience and knowledge in construction or related field
- Work well with other team members
- Knowledge of mathematics
- Willingness to learn and undertake training if necessary
- Able to communicate with site supervisors

This position requires physical momentum and good hand-eye coordination. You are also required to be punctual, reliable, efficient and flexible.
